

# Transformational Hospitality: From Charity to Justice

*An interfaith virtual cohort, rooted in popular education  
and focused on social transformation through a mutual  
learning experience.*

## VIRTUAL COHORT

*the third Monday of the month at 7pm starting October 17th 2022 -  
March 20th 2023*

We invite interfaith participation from across upstate New York. We will utilize case studies from actual situations as we learn from each other's strategies for brining about change within our congregations. Although our focus is rural New York, our course is for those seeking allies to those working for change. At the end of the Cohort, we will offer a certificate in Transformational Hospitality.

We invite participants to identify issues of focus. We will also explore the following:

- What is transformational hospitality?
- Partnership with those from different cultural backgrounds
- Partnership with community-based organizations engaged in change
- Leading a congregation to move from charity to justice
- How to fund an effort of transformation
